Welcome & training checklist

One page from a brand-new account to a team that can run a shift without you.

HOTEL	MANAGER / TRAINER	GO-LIVE DATE

Before day one

SETUP · 30–60 MIN

- ☐ **Owner account live.** Sign in at **/app** and change the password that came with the welcome email.
- ☐ **Rooms and rates.** Every sellable room has a number, type and price; the room strip shows the right count.
- ☐ **Staff accounts.** One login per person, with the right role. Nobody shares the owner login.
- ☐ **WhatsApp connected.** Send one test thread and reply from the Inbox.
- ☐ **Payments.** Cash and card methods on; gateway connected if you take online payments. Take one test payment.
- ☐ **Booking page.** Open your public link on a phone and make a test booking, then cancel it.
- ☐ **Print the pack.** Cheat sheet for the desk and till, a manual per department, this sheet per trainee.

First 30 minutes with the team

ORIENTATION

- ☐ **Dashboard tour.** Occupancy, arrivals today, and the pending badges they must clear before shift end.
- ☐ **The offline rule.** Keep working; never write the same booking or payment twice on paper.
- ☐ **Hand out the role path.** Agree shift 1 watch, shift 2 do, shift 3 own — and the sign-off slot.
- ☐ **Show where help lives.** Sidebar → Help & training, and the manual chapter for their role.

Give every new hire three things: the manual chapter list for their path, the printed cheat sheet for their station, and a named trainer for the first three shifts. Reading first, clicking second.

Go-live sign-off

A signature means the person has done the job on the live system, unaided, at full speed — not just watched it.

TRAINEE NAME	ROLE
TRAINER NAME	DATE SIGNED

Trainer tip. “Read chapters 3–5 before Thursday” works far better than “familiarise yourself with the system”. Book the sign-off before training starts; a date makes the practice real.

Two-week review

MANAGER

- ☐ Every role has a signed-off owner for each shift.
- ☐ Re-run one drill per role (manual ch. 80) and note who needs a refresher.
- ☐ Check End of Day closes on time and variances are explained, not edited.
